www.otesaga.com

Alternate accommodations and local attractions may be discovered by visiting www.CooperstownChamber.org

New this year...NYS ACCP Annual Meeting Buddy Program. If you are a preceptor looking to shape the future of a student/resident or a student/resident looking for an easy way to network and learn more about opportunities within ACCP, consider signing up for the annual meeting buddy program. This program will pair a preceptor with a student/resident for the day offering opportunities during breaks to discuss anything related to networking, ACCP involvement, research, career advancement, etc. An email with details will be sent after registration explaining the program and will include a short survey of practice interests in order to more accurately match the preceptor with a student/resident. Email: christine_groth@urmc.rochester.edu with any questions.

The American College of Clinical Pharmacy is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. This program is approved for up to 6 contact hours (0.6 CEUs) of ACPE approved continuing education. These are knowledge or application based credits. CPE program codes may be found in the Titles and Objectives section of this announcement.

To earn continuing pharmacy education credit and to receive your statement of credit for this activity, participants must complete and sign an attendance verification at the conclusion of the meeting. All participants must have an NABP e-profile ID number and date of birth on file with ACCP. All participants must claim credit at www.accp.com/ce no later than December 31, 2018. ACCP will be unable to process claims of credit after that date.

New York State Chapter of the American College of Clinical Pharmacy (NYS ACCP) Fall Clinical Meeting

Friday, November 2nd Meeting and Live Webinar

The Otesaga Resort Hotel
60 Lake Street
Cooperstown, New York

Titles and Objectives:

The Analgesic Gap: Pharmacist's Role in Pain Management and Opioid Stewardship

1.0 knowledge based contact hour: 0217-9999-18-241-L01-P

Objectives:

- Discuss the pharmacist's role on the opioid stewardship team
- Describe the standards, regulatory components, and elements necessary for development and implementation of a best practice opioid stewardship program
- Examine the clinical pharmacist's role on the interprofessional pain management team, including opioid harm reduction initiatives, utilization of non-opioid therapies, and provision of patient and clinician educational resources

Infectious Disease Potpourri: C. Difficile Management Guideline Changes, Infections in IV Drug Users, and Vaccine Updates

1.0 knowledge based contact hour: 0217-9999-18-246-L01-P

Objectives:

- Explain appropriate diagnosis and testing options for C. difficile infection (CDI)
- Discuss recent guideline updates for first-line and recurrent treatment of CDI in adults, including the role of fecal microbiota transplantation
- Identify the multitude of infectious complications of IV drug abusers with a focus on bacterial infections
- Evaluate the pharmacist role in treatment of bacterial infections related to IV drug abuse
- Evaluate the evidence supporting administration of a 3rd dose of the MMR vaccine during an outbreak and identify patients that may be potential candidates
- Compare and contrast the available herpes zoster vaccines and recommendations for their use
- Describe the egg-based vaccine manufacturing process and implications for patients with an egg allergy

Post-Intensive Care Syndrome (PICS) and Delirium Management

1.0 knowledge based contact hour: 0217-9999-18-242-L01-P

Objectives:

- Discuss the impact post-intensive care syndrome has on patients (PICS) and caregivers (PICS-F)
- Identify modifiable risk factors for the development of PICS
- Describe the pharmacist's role in the prevention and management of PICS

Pharmacy Quiz Bowl

1.0 knowledge based contact hour: 0217-9999-18-243-L01-P

Objectives:

- Discuss novel treatment options for the treatment of infectious disease, substance use disorder, cancer, and other common disease states.
- Interpret the methods, results, and implications of clinically relevant primary literature.
- Describe the clinical manifestations of diseases induced by medication or drug use

Medication Errors: Understanding, Evaluating, and Preventing

1.0 knowledge based contact hour: 0217-9999-18-243-L01-P

Objectives:

- Explain what constitutes a medication error and the global impact on patient safety
- Identify ways to effectively analyze reported medication errors
- Describe the difference between high leverage and low leverage strategies for change and provide examples of each
- Define "second victim" phenomenon and understand considerations for supporting involved staff
- Identify national medication error reporting programs and select appropriate errors for submission

Hot Topics and Late Breaking Literature in Clinical Pharmacy

1.0 knowledge based contact hour: 0217-9999-18-245-L01-P

Objectives:

- Explain the mechanism of action of CAR-T cell therapy
- Describe the efficacy and toxicity of CAR-T cell therapy
- Explain the complications associated with N-acetylcysteine administration
- Evaluate the current literature regarding alternative regimens for N-acetylcysteine
- Recognize controversies associated with the Surviving Sepsis Campaign (SSC) Bundle: 2018 Update for the treatment of sepsis and septic shock
- Evaluate literature supporting changes to the sepsis treatment bundle

Meeting Schedule:

7:15 a.m. Registration and Breakfast

7:50 a.m. Opening Remarks
Amanda Winans

8:00 a.m. The Analgesic Gap: Pharmacist's Role in Pain Management and Opioid Stewardship
Suzanne Nesbit

9:00 a.m. Infectious Disease Potpourri
C. Difficile Management Guideline Changes: Lisa Avery
Infections in IV Drug Users: Christine Ruh
Vaccine Updates: Bryan Mogle

10:00 a.m. Break

10:15 a.m. Post-Intensive Care Syndrome (PICS) and delirium management
Stephen Rappaport

11:15 a.m. Pharmacy Quiz Bowl
William Eggleston & Students

12:15 p.m. Lunch

12:15 p.m. Student networking tables (non-ACPE accredited activity)

12:45 p.m. Student poster session (non-ACPE accredited activity)

1:30 p.m. Awards
Amanda Engle

1:45 p.m. Medication Errors: Understanding, Evaluating, and Preventing
Kelsey Keeley

2:45 p.m. Hot Topics and Late Breaking Literature in Clinical Pharmacy:
CAR-T Cells: A New Frontier in Cancer Immunotherapy: Frank Lattuca
Alternative N-acetylcysteine (NAC) Regimens for Acetaminophen Toxicity: Faisal Minhaj
Service in 1-Hour or Less: Updates to the Treatment of Sepsis and Septic Shock: Kaylee Maynard

3:45 p.m. Closing Remarks
Amanda Winans

Faculty:

Suzanne Nesbit, PharmD, BCPS, CPE, FCCP
Clinical Pharmacy Specialist, Pain Management
The Johns Hopkins Hospital
President-Elect, American College of Clinical Pharmacy

Lisa Avery, PharmD, BCPS AQ-ID
Associate Professor
Wegmans School of Pharmacy, St. John Fisher College

Christine Ruh, PharmD, BCPS, AAHIVP
Clinical Pharmacy Specialist, Infectious Diseases
Erie County Medical Center

Bryan Mogle, PharmD, BCPS, AAHIVP
Clinical Staff Pharmacist
SUNY Upstate University Hospital

Stephen Rappaport, PharmD, BCPS
Clinical Specialist, Surgical Critical Care
University of Rochester Medical Center
- Strong Memorial Hospital

William Eggleston, PharmD, DABAT
Clinical Assistant Professor
Binghamton University
President, NYS ACCP

Kelsey Keeley, PharmD
Medication Safety and Quality Specialist
NYU Langone Health

Frank A. Lattuca, PharmD
PGY-1 Pharmacy Practice Resident
UR Medicine - Strong Memorial Hospital

Faisal Syed Minhaj, PharmD
PGY-2 Emergency Medicine Pharmacy Resident
UR Medicine - Strong Memorial Hospital

Kaylee M. Maynard, PharmD
PGY-2 Critical Care Pharmacy Resident
UR Medicine - Strong Memorial Hospital

No financial support was received for this program.

Target Audience:

This program is appropriate for pharmacists in a wide array of practice environments, including those those involved in the provision of pharmaceutical care, clinical pharmacy research, pharmacy management, and pharmacy education.
